I am a passionate web developer who is dedicated to creating innovative and effective solutions. I am committed to staying up-to-date with the latest trends and technologies in my field and approach every project with a positive attitude and a desire to learn. My diverse experience in web development and team leadership has equipped me with a unique combination of technical and managerial skills, enabling me to contribute value to any team.

Experience

Team Lead | Office Depot

July 2023 – Present

- Played a key role in improving team performance by identifying challenges, experimenting with solutions, and refining strategies to consistently achieve key metrics.
- Contributed to operational accuracy by reviewing processes, double-checking tasks, and ensuring team efforts met company standards.
- Helped foster a collaborative and positive work environment by sharing insights, supporting team members, and maintaining high morale through a proactive and approachable attitude.
- Oversaw day-to-day operations, including inventory management, customer interactions, and problem resolution to ensure a seamless shopping experience.

Web Developer | Daya Muneton LLC

Oct 2022 - Present

- Developed **Age of Emotions** e-commerce website (formerly ageofemotions.com) using Next.js and Tailwind CSS, featuring a user-friendly gallery and secure Stripe payment system.
- Designed and launched a membership system with exclusive discounts, increasing customer loyalty.
- Created a custom admin panel for efficient management of products, sales data, and website updates.
- Built **Dahyana Muneton's Portfolio** (dayamuneton.com), showcasing the artist's talents through an elegant online presence with tools for managing artwork and sales.

Developer | Personal Projects

- Published **4 TypeScript libraries** (npm) for HTML canvas animations and browser games:
    - *@apjs/vector*: 2D/3D vector operations.
    - *@apjs/dynamic*: Dynamic 2D animations.
    - *@apjs/tensor* and *@apjs/ml*: Basic machine learning tools.
